Delta Group

Delta Energy Systems Australia

Delta Energy Systems Australia is the Australian subsidiary of Delta Electronics – the world’s largest power electronics company and a global leader in power and thermal management solutions.

Delta’s Mission:

To provide innovative, clean and energy-efficient solutions for a better tomorrow.

Delta Group, founded by Mr. Bruce C.H. Cheng in 1971, is the global leader in power and thermal management solutions. Our mission statement, “To provide innovative, clean and energy-efficient solutions for a better tomorrow,” focuses our role in addressing key environmental issues such as global climate change. With our concern for the environment, we continue to develop innovative energy efficient products and solutions. We realize the more energy efficient Delta’s products become, the greater our impact on reducing global warming.

In recent years Delta has transformed from a product provider toward a solution provider and our businesses now encompass power electronics, energy management, and smart green life. Delta’s brand promise “Smarter. Greener. Together.” encourages the development and broad application of smart, energy-efficient solutions. At Delta we believe that technology and collaboration can lead to a cleaner, greener tomorrow.

Bruce Cheng **Founder and Honorary Chairman**

Delta is devoted to innovation and systematically developing new products and technologies, particularly those that are highefficiency and energy saving, and invests over 5% to 6% of our groups’ annual sales revenue in R&D. We have worldwide R&D facilities in Taiwan, China, Thailand, Japan, the U.S., and Europe. Our national honors for innovation include the Taiwan National Industry Innovation Award (2008 and 2012) and the Thailand Prime Minister’s Industry Award (1995, 2010, 2011, and 2012).

Throughout Delta Group’s history we have received many global awards and recognition for our business, technology, and corporate social responsibility. In 2012 Delta was selected for two of the prestigious Dow Jones Sustainability Indexes — the DJSI World Index and the DJSI Asia/ Pacific Index—for the 2nd consecutive year. Delta was also ranked first among the 29 leading companies in the Electronic Equipment sector and named as “Sector Leader” for the first time. Since 2010, Delta has received 47 internationally recognized design awards including the iF, Reddot, CES Innovation, Computex Best Choice, and Taiwan Excellence awards.

Delta will continue its dedication to developing technologies and solutions that aim to reduce global warming and ensure mankind’s sustainable future.

Mission

To provide innovative, clean, and energy-efficient solutions for a better tomorrow.

With our long-term commitment to environmental protection and technology innovation, Delta is developing highly efficient power products including switching power supplies at over 90% efficiency, telecom power at over 97% efficiency, and PV inverters of up to 98.5% efficiency.

This significant achievement marks Delta's leadership in the global power supplies industry, and our dedication to developing energy efficient solutions and alternative energy sources. We believe an environmental business approach is not only good for our planet, but also great for business.

From 2010 to 2012, Delta's high efficiency products saved 4.9M tons of CO₂e for our customers. Among its many energy-saving products, Delta has developed the world's first server power supply to achieve 80 Plus Titanium energy efficiency, which is greater than 96% efficiency.

With our vision for greener, cleaner, more energy-efficient solutions, Delta is making a unique contribution to industry and to a better world.
